Notes on Working Groups:

Cluster Working Groups

Four Cluster Working Groups (CWGs) work to maintain dialogue between government, development partners and domestic stakeholders on all issues relating to MKUKUTA clusters and macro-economic and financial management. They also provide important forum for the General Budget Support (GBS) dialogue are envisioned to be a critical forum for PER MKUKUTA dialogue. Each of the four existing clusters build on a number of Sectors and Thematic Areas, e.g. Cluster 1 (Growth and Income Poverty) builds on Agriculture, Industry and Trade, Energy and Minerals, Natural Resources and Tourism, Lands and Human Settlement and Infrastructure Sectors in addition to the Employment Thematic Area.

Sector and Thematic Area Working Groups

The Sector and Thematic Areas Working Groups represent the lowest level in the new Dialogue Structure. All Sectors and Thematic Areas follow the clusters of the MKUKUTA, based on policies and strategies for a particular sector/thematic area. Sectors include: Agriculture, education, water, health, industry and trade, infrastructure, energy and minerals, whilst Thematic Areas covers Governance, Domestic accountability, Public Service Reform, HIV/AIDS, Anti-corruption reform and Gender.
